JANINE MAKORRE

Service Designer | UI/UX Designer

Nairobi, Kenya | ✉ janinemakorre@gmail.com | ↗ behance.net/janinemakorre

PROFESSIONAL SUMMARY

Service designer with experience supporting government service digitization, payment journeys and education products. Connects user research with agency workflows, service blueprints and tested designs. Background in Telecommunication and Information Engineering; pursuing a Master's in Data Science.

CORE SKILLS

Human-centred design | User research | Customer journey mapping | Service blueprinting | Requirements gathering | Stakeholder workshops | Cross-functional collaboration | Inclusive design | Usability testing | User flows | Wireframing and prototyping | Figma

PROFESSIONAL EXPERIENCE

Service Designer | eCitizen

Aug 2024 - Present

- Supported 7 ministry, department and agency (MDA) onboardings from discovery through implementation and post-onboarding support, contributing to government service digitization.
- Co-facilitated cross-functional workshops with MDA and finance teams and gathered requirements on site, aligning distinct payment workflows with platform capabilities.
- Mapped payment journeys across digital and offline touchpoints and backstage processes in service blueprints; translated findings into flows, wireframes and prototypes for validation.
- Collaborated with stakeholders and delivery teams to implement agency-specific solutions, review progress and maintain alignment with user and operational needs.

UI/UX Designer | Oppia Foundation

Jan 2024 - Dec 2025

- Conducted usability research with 60+ Kenyan students across 10+ schools; supported pre- and post-use learning assessments and studies before and after feature launches.
- Translated learner pain points into user flows and design recommendations; collaborated with distributed teams and localized learning and research materials into Swahili.

UI/UX Design Trainee | Mbitrix

Feb 2021 - May 2022

- Created wireframes and Figma prototypes for client web and mobile projects; supported research and collaborated with engineers on implementation and design iterations.

VOLUNTEERING

UI/UX Design Mentor | Mingling Trends Marketing

Mar 2024 - Dec 2025

- Mentored three product designers through research, wireframing, prototyping and design reviews.

UI/UX Design Mentor | Vumbua Tech

Jan 2023 - Dec 2024

- Introduced 50+ high-school students to human-centred design, design careers and practical research and design activities.
